**BUILDING SUPPLY**

# Now Available at Western.

We're excited to offer Tru-Steel HD<sup>®</sup>, a game-changing option for anyone who loves the natural look of wood but needs the durability of steel.

Using high-definition digital printing, Tru-Steel HD<sup>®</sup> captures real wood textures with incredible depth and clarity—because the designs are scanned from actual wood. That means it looks like real wood and requires far less maintenance.

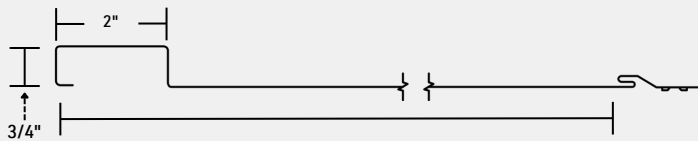

Available in Galvalume<sup>®</sup> steel, Tru-Steel HD<sup>®</sup> comes in a variety of stunning patterns—from Rough Sawn Cedar and Barnwood to Realtree<sup>®</sup> Camouflage. Choose from a range of unique styles, including varied-width plank patterns, log-style designs, and bi-directional grain finishes—all created to give a natural, realistic look right out of the box.

And it's not just beautiful—it's sustainable, made with up to 80% recycled materials through an electric arc furnace (EAF) process, helping your project move closer to LEED certification.
